

## St Helens Cafe School Menu

### Summer Term

Global Theme: Sustainable Environmental Development

Big Question: How can human's negative behaviour impact the environment?

Topic: History will focus on the significant event of plastic being invented.  
Geography will focus on a local area and how it has changed over time from an environmental perspective.

### Main Course

#### Big Maths Learn Its

A few juicy mathematical facts for you to learn off by heart: rapid, very rapid recall! These progress systematically and need quick reactions and no fingers! Not forgetting to make the most of Numbats to try and beat your personal best!

#### Key word practice

Look in your key word book and practice the year 1 common exception words and spelling rule sheet (if applicable). The spelling rule sheet are sent out every week.

#### Reading

A true sharing treat! Children and families can read and discuss books together after school, before school, in the car, in fact this treat can be enjoyed anytime and almost anywhere. Devour 4-5 pages at a time for full flavour. *When writing in your child's reading record, please include the date, title of the book and any useful comments. When your child is read with at school, it will be recorded in a green pen. When you record comments at home, please use a different coloured pen so it is clear to see home/school communication. Thank you. Don't forget, if you read 5 days a week, you will be in for a chance of winning a new book!*

#### Phonics

Have fun reading and spelling on Phonics Hero! Phonics Hero will help you to read and spell each of the 44 sounds in the English language. The games build reading and spelling skills gradually, leading up to applying the skill independently. It's important to practise Phonics to recognise common letter-sound relationships, including sounds for common letter patterns so that you can apply them in decoding and spelling unfamiliar words. Can you help Zack save his superhero friends and ultimately defeat Dr. Lazy Bones?

**Side Orders** These optional extras will add a bit of variety to the main menu!

**The Mathematician (Multiplication and Division).....**

During Term 5, the children will be learning how to make and add equal groups. This will link into the introduction of multiplication where we will be focusing on repeated addition through arrays. Keep practicing counting in steps of 2s, 5s and 10s and recalling doubles facts to help you.

The illustration shows two boxes. The top box contains four groups of three pencils each, with the text 'There are \_\_\_ groups of \_\_\_ pencils.' Below it are four groups of three flowers each, with the text 'There are \_\_\_ groups of \_\_\_ flowers.' The bottom box shows three hands, with a red-bordered box containing the equation  $5 + 5 + 5 =$ .

**The Marine Biologist.....**

Can you find out what lives in the five layers of the ocean? Present your information in an interesting way, perhaps a labelled diagram or in a pictogram.

**The Pollution Preventer.....**

Research the dangers of plastic in the ocean. Create a poster promoting how to look after our oceans to stop plastic pollution.

**The Creator.....**

Can you be creative and use recyclable materials to create a 3-D model related to the ocean?

**The Artist.....**

Choose a sea creature to sketch. If possible, use colours to reveal the beauty of the sea animal!

**The Scuba Diver.....**

Imagine you have dived deep into the ocean. Write a recount about what you have discovered. Use time connectives 'First, Next, After that, Finally' to sequence your writing. Remember to use descriptive language so that we can picture what it's like down there too!

**The Poet.....**

Write an ocean acrostic poem. For example,

Opulent jewels of the vast blue seas  
Cold water currents swimming underneath  
Eternal beauty shimmering deep below  
Adventurous fish diving fast and slow  
Near glowing plants of coral reefs

You may choose to use a name of a sea creature as the title instead. For example, OCTOPUS, WHALE or JELLYFISH
